

LEHRMAN CAMERON STUDIO

Children's Hospital of Seattle

Exhibit Planning and Design

Client
Children's Hospital

Location
Seattle, WA

Size
800 sq ft

Children's Hospital in Seattle celebrated its Centennial Anniversary and hired LCS to convey their history in the hospital's entry space. LCS worked with the client to develop a graphically composed organization of stories, including multilingual translations. This busy space is populated by anxious parents, hospital staff and others who can become part of the history's continuum by leaving their stories at an interactive station. A window wall of historic and contemporary images completes the atmosphere.
