

Lake Union History Trail

Interpretive Planning and Design

Client
Seattle Parks & Recreation

Location
Seattle, WA

Size
12 acres

Seattle waterfront history takes center stage at Lake Union Park. LCS designed the History Trail there; a series of interpretive monuments, signs, and exhibits focusing on the rich, urban culture where the city meets the water. We also designed the information kiosk. Working closely with Seattle Parks and Recreation, Seattle Parks Foundation, and Hargreaves Landscape Architects, LCS created iconic design elements responding to the park's unique micro-environments and fascinating, important history.
